

CALLING NEW PARENTS!

We want to give you and your new baby the gift of reading! Newborns who are read to develop a larger vocabulary, math and language skills. As your child's first and best teacher, you can help them grow and learn by reading to them each day.

Read To Me

Stop by the Palmerton Area Library at 402 Delaware Ave. Palmerton to **pick up your free Read To Me bag**. Inside you will find a children's beginner board book and information on the benefits of reading to babies. **Each bag has been lovingly donated and features a picture of a child who was read to.**

Your baby will will make a connection between the things he loves the most--your closeness and your voice---and books.

The Read To Me program at Palmerton Area Library was started by mother and educator Susan Olivia in memory of her daughter Kristin. It is also supported by local donors and book lovers. For more information about the program or to donate, contact the library.
